Driving Industrial Intelligence Forward

Transforming Industrial Maintenance with AI-Powered Predictive Intelligence.

About PredictorMT

Empowering Industries with AI-Driven Predictive Maintenance & Real-Time Machine Intelligence

PredictorMT enables manufacturers to monitor industrial assets in real time using AI-powered analytics, IoT sensor data, and predictive maintenance. Our platform helps detect equipment issues early, optimize maintenance schedules, and improve operational efficiency.

AI-Powered Monitoring

Monitor machine health with real-time sensor data, intelligent analytics, and continuous performance tracking.

24/7 Real-Time Monitoring

Trusted for secure industrial monitoring with scalable IoT architecture and real-time machine insights.

Learn More About

Our Approach

Our Smart Approach to Industrial Intelligence

We combine AI, IoT, and predictive analytics to monitor industrial assets, prevent failures, and improve operational performance in real time.

Get Started

Our Mission

Deliver intelligent industrial monitoring solutions that minimize downtime, optimize maintenance, and maximize equipment performance.

Our Vision

Become a global leader in AI-powered predictive maintenance, enabling smarter, safer, and more efficient industries.

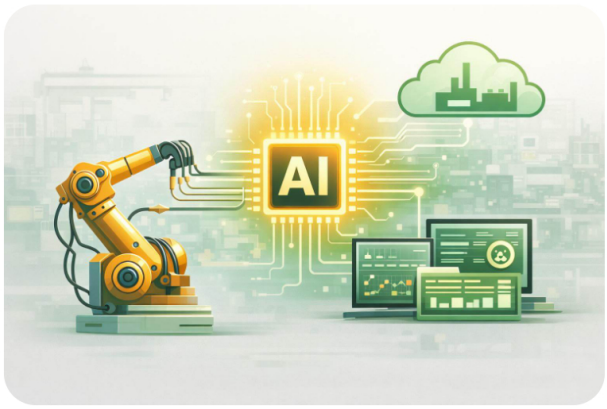

• Why Choose Us

Smarter Monitoring. Reliable Performance.

Reduce downtime with AI-powered monitoring and predictive maintenance.

A Full IoT Solution

Complete IoT platform connecting devices, sensors, applications, and industrial systems seamlessly.

Business Domain Solution

Integrated gateways, software, and networking for reliable industrial IoT deployment.

Quick Deployment

Deploy industrial monitoring solutions quickly with minimal setup and configuration effort.

Modular & Scalable

Flexible architecture supporting business growth with scalable industrial IoT infrastructure.

Capability Development

Continuously improving industrial intelligence through adaptive learning and AI capabilities.

Pattern Recognition

Automatically identify data patterns for smarter decisions and predictive maintenance.

• Our Team

Meet the Experts Behind PredictorMT's Innovation

Bachelor of Engineering in Electronics with 20+ years of expertise in predictive maintenance, technology development, operations management, and industrial consulting.

Mr. Aamir Aslam
Co-Founder & COO

Mechanical Engineer with an M.Eng. in Machine Design and extensive expertise in predictive maintenance, data analytics, technical leadership, and system implementation.

Mr. Fahad Ahmed
Co-Founder & CTO

Fellow of the Society of Actuaries (USA) with 30+ years of insurance, risk management, and executive leadership experience as CEO.

Mr. Javed Ahmed
Co-Founder & CEO

• Our Core Values

Driving Industrial Innovation Through AI & Reliability

AI-Driven Innovation

We leverage artificial intelligence and predictive analytics to transform industrial maintenance with smarter decisions, greater efficiency, and optimized equipment performance.

Reliability & Performance

Our platform continuously monitors equipment health, minimizes unexpected downtime, improves reliability, and maximizes productivity across industrial operations.

Smart Connected Solutions

Combining IoT sensors, cloud computing, and advanced analytics to deliver real-time monitoring, predictive insights, and sustainable industrial growth.
