Product

# Advanced Products for Connected Industries

Explore intelligent solutions for predictive maintenance, industrial electronics, and real-time data analytics.

### Maintenance & Solutions

### Industrial Electronics

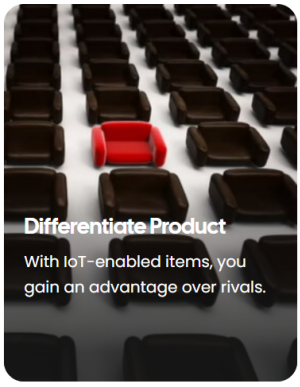

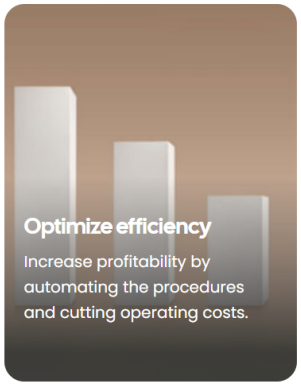

### Data & Analytics Software

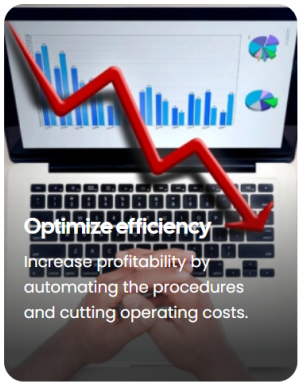

Our Projects

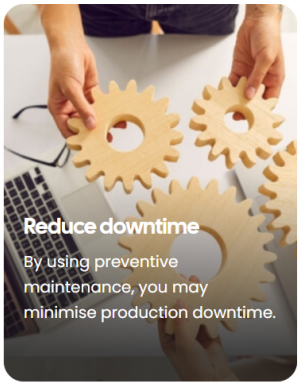

# The Internet of Things for original equipment manufacturers (OEMs)

Digital skills are essential to maximise productivity and efficiency to a new level across a company or environment. A full IoT solution can help you discover new potential revenue streams and enable you to produce products (equipment) that are specifically tailored to your customers' needs.

## Industries Together
